

What We Got from DSAP

Feedback from University Students in Shanghai

May 2007

Hi Mr Li,

Attached is the finalized DS Report of mine. Thank you so much for your amending.

The method “Job Magnet” that you introduced to us is really useful. There was someone who was interested in DS when I tried it this morning in the subway. Although he didn’t introduce me an internship at once, I became more confident that it wasn’t so difficult to find a good job if I have the proper method.

Of course I will keep doing like this, not only for seeking job, but also for training my as a social person. Further, this is quite helpful for my favorite job of marketing. I will try to use what I have learnt to “sell myself.” Once again, my heartfelt gratitude to you. You have taught me not only how to face a job hunting, but also how to deal with my whole career life.

Hello Mr Li,

I'm Sun Li from Shanghai Normal University. After the two day DS workshop, I really got a lot. I find that I have obtained a clearer and deeper view on myself now. I want to thank you not only for your hard working, but also for bringing me such a storm that washed my soul and heart. Again, thank you for what you did and what you will do for the Chinese university students. I think all of those will change our thoughts and concepts thoroughly.

During these two days, the most attractive and impressive parts of the workshop are your concepts and attitudes. I believe that an excellent life needs to be directed by an excellent attitude of life. Yes, you are right, only if we assume the self responsibility, will we get a better life. We have to make our own way in the journey of life. You are so reliable and respectable so that I want to share some plans and thoughts of my life with you, and hope you can give me some ideas and suggestions.

Please find attached my personal dream and my dreamy life when I get to 35 years old.

I'm Xiong Minhua from Shanghai University. I took the DSAP workshop in this May holiday and gained a lot. In the past, I always thought that I had a lot of experience, but I didn't know how to conclude and find my dependable strengths. After the training, I found my dependable strengths successfully from my Good Experience. Thank you.

Attached my DS Report and resume, hope I can have a chance to show my dependable strength in the companies that you recommended.

Thanks again. My contact number: xxxxxxxxxxxx.

Dear Mr Li,

I'm Zhenni. During the last two day DSAP workshop, I had gotten through a wonderful Journey to explore and discover myself. It's the first time I felt that knowing self is not an easy thing. As a grade two student, I will pay more attention to my long-term development of my character building and enhancement of my dependable strength rather than those short term utility functions. Hope I can get more advice from you for my career development. And I will tell you my latest development and goal as soon as possible.

The concept and attitude you brought to us make me find a definite direction and the motility during those two days. By the way, thank you again for the two chocolate bars in the class. I was so happy to get such an award from you. That's the best encouragement I got in recent years. I am so proud of myself. I trust that I will be the student who you will be proud of in the future.

Hello, Mr Li

I'm Tan Yashu. I have gained a lot from the two day workshop. Thank you so much!

Here I want to share my experience with you. I think this program is very pertinence and systemic. It is much more than just training. It is a research, even an art. You may know, I often thought about some questions on the communication skills before, finally I found so many good answers in your training.

However, there is one thing that I like to discuss with you further. You said we should have focused on taking advantage of our strengths. I would think we still need to make efforts in correcting the weaknesses as they would leave negative effects on our Dependable Strengths. If we can also overcome the weaknesses, we can make bigger success. What do you think about that?

As a Grade one student, I am full of dreams for my future. I will firmly keep going step by step! Thanks very much again. A happy greeting to your family.

Tan Yashu

Freshman, Major in International Finance, Shanghai International Studies University

Dear Mr Li,

First of all, thanks very much for your workshop, it was coaching; it was training and it was the answer to puzzles. That's really helpful for me. Thank you, and thank you again.

My dream when I reach 35 years old is to become a member of management team in a multi-national company, such as in a department of internal control. Nevertheless, I am suitable to be no. one person in a team or organization.

Please find attached DS Report. Perhaps you can read me more detailed. I'm looking forward to your suggestions.
